MOSAIC 1.0.1

RELEASE NOTES

1. ABOUT dCS MOSAIC

1.1 PRODUCT DESCRIPTION

dCS Mosaic is a carefully assembled collection of hardware and software modules which, when combined, provide a listener easy and intuitive access to a vast catalogue of digital music. Whether it's high resolution files on the listener's own server or an internet radio station broadcast from a distant land, dCS Mosaic removes all of the associated technical complexity and ensures that the music one loves is only a few convenient taps away.

1.2 COMPONENTS

To familiarise you with the naming convention of the Mosaic components a brief description of each is included below:

Component	Description
dCS Mosaic	<i>dCS Mosaic is the product name for the audio streaming and networked control functionality of dCS products.</i>
dCS Mosaic Control	<i>dCS Mosaic Control is the name of the new dCS unified music management and control app. It supports both iOS and Android devices.</i>
dCS Mosaic Processor	The dCS Mosaic Processor is the physical hardware component and associated software that is installed in the dCS product to provide streaming functionality.

1.3 VERSIONS

When installed, dCS Mosaic will reflect the following software versions in dCS Mosaic Control on the about page (*Settings > Support > About dCS Mosaic*):

dCS Mosaic Processor Version: 1.0.1 (501)
dCS Mosaic Control Version: 1.0.1 (38)

The dCS Product's front panel will show the following under VERSIONS:

Network: 501

MOSAIC 1.0.1

RELEASE NOTES

1.4 AVAILABILITY AND DISTRIBUTION

Version 1.0.1 of *dCS* Mosaic is available as a no-cost update for existing *dCS* customers as follows:

- Mosaic 1.0.1 will be available to all customers on 5th June 2019 at 9:00am GMT
- Mosaic 1.0.1 will be delivered as an update to *dCS* Mosaic Control and *dCS* Mosaic Processor
- Customers will need to download an update to *dCS* Mosaic Control from either the App Store or Google Play
- Customers will need to perform a network update of their *dCS* product.

2. CHANGES

2.1 NEW FEATURES

Mosaic 1.0.1 contains no new features from Mosaic 1.0.0.

2.2 FIXES AND IMPROVEMENTS

The following changes reflect improvements to existing functionality or fixes to identified bugs.

- **Search:** When navigating backwards to the main page of the search interface the search field is no longer pre-selected in error.
- **Search:** USB folders are no longer erroneously marked as searchable.
- **Search:** Results for Deezer, Qobuz, and TIDAL are now ordered consistently.
- **Services:** Corrected an issue which prevented the display of enhanced metadata for some service playlists (Deezer, Qobuz, and TIDAL).
- **Services:** Corrected an issue in which a Spotify user name containing certain accented characters would cause a login failure.
- **Browsing:** Containers with no items to display now show "Nothing Found" instead of a blank screen.
- **Interface:** Increased the tap area around 3-dot menus and other interface elements.
- **Miscellaneous:** Mosaic Control and Mosaic Processor versions are now properly tracked independently of each other.
- **Miscellaneous:** Updated the command structures used for internal product testing during production.

3. USAGE NOTES

All Mosaic 1.0.0 documentation is still applicable to Mosaic 1.0.1.

RELEASE NOTES

4. GETTING SUPPORT

4.1 SUPPORT RESOURCES

If you're having trouble with *dCS* Mosaic or other aspects of your *dCS* product rest assured that there is a large network of people worldwide who are ready to assist you.

Your first line of support is always your [dCS dealer or distributor](#). Our partners are rigorously trained on every aspect of our product line so they are well-equipped to deal with most problems.

You are also encouraged to visit our community site (<https://dcs.community>) and here you will find complete documentation for Mosaic along with other FAQ, technical and support topics. This forum is actively monitored by *dCS* personnel and you are welcome to post in the Support area with any questions you may have.

4.2 dCS MOSAIC DOCUMENTATION

We anticipate that Mosaic will evolve quickly and this always poses a problem as it's very easy for printed manuals to become out-of-date. To address this issue we have developed an online user guide which is constantly maintained and will be kept in sync with Mosaic as the product evolves. In addition we have developed a two-page quick reference guide which will assist new users with the basics of Mosaic Control. Links to the two guides are:

Quick Reference Guide: <https://dcs.community/mosaic-qrq>

User Guide: <https://dcs.community/mosaic-user-guide>
